

# Application Devt. Course Outline

## Building Web Applications with IBM Lotus Domino Designer 8

<b>COURSE CODE</b>	D8520
<b>PRODUCT</b>	Notes/Domino
<b>RELEASE</b>	8.0
<b>DELIVERY METHOD</b>	Instructor led
<b>DURATION</b>	2 days
<b>FEE</b>	Php 74,460.00 plus VAT

### SUMMARY DESCRIPTION

This course extends participants' Domino application development skills by teaching them how to use the Domino tools to design and develop dynamic Web applications. Participants learn how to efficiently use Domino fields and page lay out design elements in the Web pages. They learn how to use JavaScript in their Domino application. Participants do not need to know how to program in this language to acquire an understanding of how and where to apply the programming capabilities to the best advantage. Finally, this course covers security topics specific to the Domino Web environment.

### TOPICS

#### Building IBM® Lotus® Domino® Forms for the Web

- Exploring Lotus Domino Forms Rendered to a Browser
- Creating Links
- Customizing Input Tags for Lotus Domino Fields
- Working with Lotus Domino Fields for the Web

#### Enhancing the Appearance of Web Pages

- Using Cascading Style Sheets
