System Admin.

Exploring New Features of IBM Lotus Domino 8.5 Administration

COURSE CODE	D8730PH
PRODUCT	Notes/Domino
RELEASE	8.5
DELIVERY METHOD	Instructor led
DURATION	1 day
FEE	PhP 37,230.00 plus VAT

SUMMARY DESCRIPTION

This course prepares Lotus Domino 7 or 8 system administrators to support a migration to a Lotus Domino and Lotus Notes 8.5 environment. This course will benefit you by providing them with the additional information and skills they need to perform their duties efficiently using Lotus Domino and Lotus Notes 8.5. It will build upon your existing administration expertise in the Lotus Domino 7 and 8 environments and prepare you to make effective use of both the new user enhancements and the administration improvements and advances that will be available to them in the Lotus Domino 8.5 environment.

TOPICS

Examining the IBM Lotus Domino 8.5 Environment

Overview of New IBM Lotus Domino 8.5 Administration Features

- Introducing New Features of Lotus Domino 8.5
- Upgrade Strategies
- Implementing Lotus Domino 8.5 in Mixed Environments
- Investigating Deployment Plans and Scenarios

Overview of New Features in IBM Lotus Notes 8.5 Clients

- Comparing Desktop Client Types
- Examining Lotus iNotes
- Examining Mobile Client Options
- Identifying Performance Improvements
- Installing and Upgrading Clients

Managing Users and Servers

Managing Users and Groups

- Overview of User-Management Enhancements
- Auto-Populated Groups
- Supporting Roaming Users
- Implementing Dynamic Policies
- Using Roaming Policies

Managing Servers

- Overview of New Server Tools and Tasks
- Configuring the Domino Server with notes.ini
- Changing the On-Disk Structure Format
- Router Optimization
- Console Log Mirroring
- Using the Remote Admin Console
- Using the Domino Configuration Tuner

TOPICS (continued)

Managing Content

Managing Feeds and Subscriptions

- What Are Feeds?
- Feed Readers
- Feeds and Lotus Notes and Domino
- Benefits of Implementing Feed Supports
- Configuring Feed Support

Managing Widgets and Live Text

- What Are Widgets?
- What Is Live Text?
- Introduction to Expeditor Component Packaging
- Configuring Access to Widgets and Live Text

Implementing New Security Features

Managing the IBM Lotus Notes ID Vault

- What Is the Lotus Notes ID Vault?
- Management Options

Managing IBM Lotus Notes Shared Login

- What Is Lotus Notes Shared Login?
- Management Options

Implementing New Encryption Techniques

- What is AES Encryption?
- Benefits of Implementing AES Encryption
- Encryption Options

Implementing Hardware Conservation Techniques

Implementing New Compression Options

- Overview of New Compression Options
- Serving Compressed Documents on a Lotus Domino Web Server
- Enabling Image Compression

Implementing Domino Attachment and Object Service

- What Is the Domino Attachment and Object Service?
- Benefits of Implementing DAOS
- Implementation Best Practices

AUDIENCE

- This intermediate course is designed for experienced Lotus Domino 8 administrators who require early exposure to new Lotus Domino and Lotus Notes 8.5 features that affect system administration, and who will be responsible for updating an existing Lotus Domino and Lotus Notes 8 environment to Lotus Domino and Lotus Notes 8.5 .
