

Domino *i-Sell* Customer Relationship Management Solution

Introducing "Domino *i-Sell*" by Interlink Business Solutions, Inc., a customer relationship management solution that provides account profiling, lead management, activity management, and sales process tracking information in a single platform. Move up your customer support level, strengthen customer retention, develop new businesses and increase revenue growth through paperless automated workflow processes.

Whether you are managing a global organization or small business, you can benefit from implementing "Domino *i-Sell*". Your sales and marketing team gains instant access to critical business information pertaining to their accounts; your customer service team is empowered to respond to customer queries through controlled access to project status information; and your management team is enabled to track sales activities and progress.

Achieve positive results with "Domino *i-Sell*". Designed for high-impact workgroups, "Domino *i-Sell*" is developed in collaboration with sales management consultants using the best practices gathered from different organizations.

"Domino *i-Sell*" is built on IBM Lotus Domino, a platform whose solutions have won awards for their power, flexibility and security.

"Domino *i-Sell*" Starter Package
